

## Teenage Pregnancy Prevention

*Helping People  
Changing Lives*

The United States is facing a teen pregnancy health care crisis! The national policy of abstinence-only programs has not been successful.

In Nassau County the teen pregnancy rates has considerably increased over the last few years. In Hempstead 11550 alone; there is a 58% pregnancy rate in the Hempstead High School and Middle Schools .

**There is help available through EOC  
Teenage Pregnancy Prevention Program:**

- Peer groups
- Group-level Health Education Workshops
- Parent groups
- College resources & assistance
- Other support services through EOC Agency Programs
